UK AUDIENCE NETWORK

Master Business Plan, Content Engine & Month-1 Validation Architecture

Five UK Facebook media brands for adults 30+ -> original organic content -> owned comparison funnel -> PPS/CPA affiliate revenue.

Prepared as a durable handoff document for the owner, staff, Cursor/ChatGPT, and future AudienceOS development.

Version 1.0 | 30-day validation sprint | October 2026

0. AI / Staff Handoff - Read This First

This section is intentionally explicit so another ChatGPT, developer or staff member can understand the project without the original conversation.

Project in one sentence	Build five distinct UK Facebook audience assets for adults 30+, use original AI-assisted content to earn organic reach, learn which audience/content combinations attract commercially valuable users, and later route appropriate traffic through one owned comparison website to approved dating affiliate PPS/CPA offers.

Non-negotiable strategy: Organic reach is the engine. Paid Meta is support only after a post proves itself. Month 1 is a validation sprint, not a scale sprint. We do not mass-produce 5,000 generic posts before data tells us what works.

Five launch pages: Back in the Game UK; After Hours Singles UK; Single Parent Stories UK; Still Got It UK; Casual By Choice UK.

Month-1 output: 36 posts per page = 180 posts total. Exact mix per page: 16 original Reels, 12 image/story posts, 4 native polls, 4 carousels.

Month-1 business goal: establish clean performance baselines, identify the top 2-3 pillars and hook patterns for each page, prove the operating workflow, and if possible generate the first organically attributed approved PPS sale. Do not optimise for follower vanity metrics.

Future operating system: AudienceOS. Staff log in individually, see assigned content tasks and exact asset briefs, work from Google Drive-linked folders, upload/mark assets ready, and the owner sees page/post performance plus affiliate click and sale attribution. The OS is specified later in this document but is intentionally not being built in this PDF.

Critical safety / quality rule	AI is the production department, not the source of fake reality. Do not invent real customer testimonials, steal creator videos, publish identifiable private dating screenshots, use fake statistics, or copy another page with minor edits. Fictional scenarios must read as editorial scenarios, not fabricated customer proof.

1. Executive Summary

The company is a small performance-publishing operation. It does not own a dating product. It owns audiences, original content, a public comparison/editorial website, first-party attribution, affiliate relationships, and the decision logic that determines which approved offer receives traffic.

The first geographic market is the United Kingdom because Facebook still has very broad adult reach there, English lets the team quality-control AI-assisted storytelling directly, and the UK has meaningful online-dating usage across adult age groups. The launch deliberately focuses on 30+ audiences rather than young mass-market traffic.

Core flywheel: original content -> organic reach -> followers -> repeat reach -> owned website -> partner click -> approved PPS sale -> revenue -> selective reinvestment into proven content -> more audience.

1. Audience	2. Content	3. Owned Site	4. Partner	5. Money
Five UK 30+ personas	Original Reels, stories, polls, carousels	Guide / comparison page with disclosure	Approved affiliate link with click ID / subID	Approved PPS / CPA commission

PPS definition: Pay Per Sale. The publisher is paid when a referred user completes the qualifying paid action defined by the affiliate agreement and the conversion is approved. Month 1 should track tracked sales separately from approved sales because refunds, duplicates or validation rules can change the final payable amount.

2. Why This Model Is Worth Testing in the UK

Research supports the channel and audience choice, but no source can guarantee that an individual content idea will go viral.

• **Facebook remains a major UK adult platform:** Meta advertising data reported by DataReportal indicated about 38.8M Facebook users in the UK in late 2025 and reach equivalent to about 69.9% of UK adults 18+.

• **Facebook is still a daily habit:** Ofcom's 2025 online report described Facebook among the UK's most commonly used apps.

• **Older dating usage matters:** Ofcom's 2024 dating analysis found Plenty of Fish and Match skewed strongly to ages 35-54, and users aged 55-64 who did use dating services spent the most time on them among the reported age groups.

• **Originality matters:** Meta said views and watch time for original Facebook Reels approximately doubled in the second half of 2025 compared with the same period in 2024, while duplicated or low-value edited content is deprioritised.

• **Affiliate disclosure matters:** UK ASA/CAP guidance treats affiliate marketing as advertising and requires commercial content to be obviously identifiable as advertising.

Interpretation	These signals justify testing a UK 30+ Facebook publishing network. They do not justify assuming a specific persona will monetise. Month 1 is designed to create our own evidence.

3. Business Model and Economics

Revenue model: initially PPS/CPA only. The business should prefer clear first-sale economics before testing revenue-share. Every offer is evaluated by actual EPC and approved revenue, not by headline payout alone.

Core commercial math:

Affiliate EPC = approved affiliate revenue / partner clicks

Paid-customer CPA = paid amplification spend / approved paying customers

Organic revenue efficiency = approved affiliate revenue / organic reach x 1,000

A lower-payout offer can be more profitable if it converts better. Example: an offer paying GBP70 at 6% sale rate produces GBP4.20 expected revenue per partner click; a GBP120 offer converting at 2% produces GBP2.40. The business routes more traffic to the stronger economics, not the bigger headline payout.

Monetisation rule for month 1: Do not turn every post into an affiliate post. Weeks 1-2 contain no direct monetisation. Weeks 3-4 may use a small number of editorial guide / comparison bridges after the audience has received substantial native value.

4. Five-Page Portfolio Architecture

Page	Persona	Public promise	Commercial hypothesis
Back in the Game UK	35-50 - Divorced or separated adults who are dating again after a long relationship.	Dating again after a long relationship? Stories, laughs, awkward first dates and second chances for UK singles 35+.	Serious, general and casual dating comparison routes for people starting again.
After Hours Singles UK	30-45 - Busy professionals who have careers, independence and disposable income but limited time for dating.	Work is busy. Dating is complicated. Stories, humour and real conversations for UK professionals who are still single.	General and quality-focused dating services; later test convenience and serious-intent offers.
Single Parent Stories UK	30-50 - Single or divorced mums and dads balancing children, co-parenting, work and dating.	Dating, parenting and starting again. UK stories and conversations for single mums and dads.	Serious/general dating routes and services suitable for adults with children.
Still Got It UK	50-65+ - Mature singles, divorced/widowed/long-term single adults who value companionship and independence.	You are older, wiser and definitely not finished. Dating, independence, companionship and new beginnings after 50.	Mature, serious and companionship-focused dating offers; test casual only where appropriate.
Casual By Choice UK	30-50 men - Men over 30 who value independence and may prefer casual or low-pressure dating rather than immediate commitment.	Modern single life for UK men 30+. Dating, confidence, first dates, attraction and honest no-pressure connections.	Casual/general dating PPS routes, subject to partner and platform traffic rules.

Naming note

These are the recommended launch names. Before creation, check Facebook Page name, Instagram handle and relevant domain availability. If a name is unavailable, preserve the persona and positioning rather than forcing an awkward spelling.

5. Month-1 Content Engine

Exact monthly production per page: 16 original Reels + 12 image/story-card posts + 4 native polls + 4 carousels = 36. Across five pages: 80 Reels, 60 image/story posts, 20 polls and 20 carousels = 180 total assets.

Format	Per page	Network total	Purpose	Production standard
Original Reel	16	80	Reach + comments	20-35s; hook in first 2s; 4-6 original/AI-created scenes; natural UK voice; captions; end with one question.
Image / story card	12	60	Relatability + discussion	4:5 editorial visual; strong headline; caption carries the story; no generic quote spam.
Native poll	4	20	Low-friction comments / preference data	Simple question and 2-4 choices. No outbound link.
Carousel	4	20	Saves + educational value	5 slides: hook -> 3 useful points -> discussion question.

Weekly rhythm per page (9 posts): Monday Reel; Tuesday image/story; Wednesday Reel + poll; Thursday image/story; Friday Reel; Saturday image/story + Reel; Sunday carousel. This gives 36 posts over four weeks without flooding the Page.

Initial posting windows: test lunch (roughly 12:00-14:00 UK) and evening (roughly 18:30-21:00 UK). After two weeks, use the Page's own Insights rather than generic best-time advice.

6. Content Quality Rules - What Staff Must Follow

Original first	Every Reel and image must be created for our page. No downloaded TikToks, copied memes, minor edits of other creators, or stolen dating screenshots.
UK-natural language	Use British wording and situations: mum, holiday, pub, train, city, weekend, childcare. Avoid robotic AI phrasing and unnecessary Americanisms.
One post = one idea	The hook should be understandable in two seconds. Do not cram five themes into one post.
Conversation ending	Most posts end with one honest question. Comments are part of the content product.
No fake reality	Fictional scenarios are allowed, but never present an AI character as a real customer testimonial or claim a made-up story came from a follower.
No humiliation	Do not post identifiable dating profiles or private messages without clear permission.
No sexualised bait	Especially on Casual By Choice UK: no explicit imagery, "hot singles near you" style posts, or objectifying women. We are building a durable audience asset.
No hard sell in weeks 1-2	Build audience trust and learn distribution before affiliate promotion.
No blind volume	If a pillar is consistently weak, stop feeding it. If one insight wins, create new executions around the insight rather than duplicating the exact post.
Human approval	AI may draft scripts, images and reels. Staff must review every item before publication.

7. Staff Workflow and Google Drive Asset Architecture

The staff member should not start each day wondering what to create. The future AudienceOS will convert every content idea into an assigned task. Until AudienceOS is built, the same structure can be operated from a spreadsheet + Google Drive.

Step	Staff action	Required output	Owner / system check
1. Open Today	See assigned post IDs, due times and briefs.	No manual topic choosing unless assigned as research.	Owner has approved the queue.
2. Draft	Generate/rewrite script, caption and creative prompt using approved AI workflow.	script.txt, caption.txt, prompt.txt	UK tone, no fake claims.
3. Create asset	Create Reel, image, poll or carousel exactly to format spec.	final.mp4 / final.jpg / slide set	Original, legible, no third-party watermark.
4. QA	Check spelling, hook, safe margins, subtitles, page branding, duplicate risk.	Task marked READY FOR REVIEW	Owner/reviewer can approve or request change.
5. Publish	Publish at assigned window; save native URL/post ID.	Facebook post ID + public URL	OS records publication time.
6. Learn	Do not manually interpret winners unless asked.	24h/72h metrics collected.	Owner/system classifies winner and next tests.

Google Drive root: /AudienceOS/01_UK/Pages/[PAGE]/YYYY-MM/[POST-ID]/

Recommended files inside every post folder: **brief.md, script.txt, caption.txt, creative-prompt.txt, source-notes.txt, final.mp4 or final.jpg, thumbnail.jpg**. AudienceOS later stores the Drive folder ID instead of duplicating media in its own database.

Naming convention: use the same immutable ID everywhere, for example **UK-BGUK-001**. That ID later appears in the content task, Facebook mapping, website UTM, affiliate subID and analytics table.

8. Tracking Architecture From Day One

The entire point of this company is to learn which audience attention becomes money. Therefore every published piece must have a permanent post ID even before the affiliate website is live.

Layer	Example	What it answers
Geo	UK	Which market?
Page code	BGUK	Which persona/page?
Post ID	BGUK-001	Which exact content item?
Site session	first-party click/session ID	Which website visit came from that post?
Affiliate subID	UK-BGUK-001	Which partner click/sale maps back to which post?
Conversion status	tracked / approved / rejected	How much revenue is actually payable?

Do not optimise to followers alone

A page with fewer followers can be a stronger business if it produces more website visits, partner clicks and approved PPS revenue per 1,000 organic reach.

9. KPI System and Winner Logic

Metric	Formula / meaning	Why it matters
Organic reach	Native reach reported by Page/post	Distribution.
Shares / 1K reach	shares / reach x 1,000	How strongly people pass the idea to others.
Comments / 1K reach	comments / reach x 1,000	Conversation strength.
Follows / 1K reach	new follows attributed / reach x 1,000	Audience-building efficiency.
Website visits / 1K reach	site sessions from page/post / reach x 1,000	Commercial intent.
Partner CTR	partner clicks / comparison visitors	How persuasive/relevant the comparison is.
PPS conversion	approved sales / partner clicks	Offer fit.
EPC	approved affiliate revenue / partner clicks	Offer economics.
Revenue / 1K organic reach	approved revenue / organic reach x 1,000	Ultimate organic media value.

Initial organic winner rule: flag a post if reach is at least 2.0x the Page's rolling median OR shares per 1,000 reach are at least 1.5x the Page median OR Reel watch performance materially exceeds that Page's baseline. AudienceOS should make thresholds configurable after the first 50-100 posts.

What happens after a winner: extract the underlying insight (for example, independence after divorce), then create 3-5 new executions using a different situation, hook and visual. Never duplicate the winner word-for-word.

10.1 Page Playbook - Back in the Game UK

Code: BGUK | Target: 35-50

Persona	Bio	Tone	Visual system
Divorced or separated adults who are dating again after a long relationship.	Dating again after a long relationship? Stories, laughs, awkward first dates and second chances for UK singles 35+.	Warm, hopeful, emotionally intelligent, lightly funny. Never pitying.	Cream + dark navy, warm editorial photography, natural homes/cafes/walks, mature but modern.

Core pillars: Starting again; confidence; exes; children; first dates; modern apps; independence; second chances.

Commercial hypothesis: Serious, general and casual dating comparison routes for people starting again.

Priority launch ideas: The first 10 rows in the month calendar are marked PRIORITY. They are the strongest initial hypotheses, not guaranteed viral posts.

Week 1 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
BGUK-001	Reel	First date	PRIORITY - Your last first date was in 2008. Tonight you are doing it again.	20-35s original AI-assisted reel. Cinematic UK cafe prep: coat, mirror, train, table for two. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
BGUK-002	Image	Confidence	PRIORITY - Would dating again at 42 excite you or terrify you?	4:5 editorial image/story card. Editorial portrait of confident 40s adult with bold question card. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
BGUK-003	Reel	Modern dating	PRIORITY - 3 things that changed while you were married.	20-35s original AI-assisted reel. Fast scenes: phone app, texting, coffee date; three simple overlays. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
BGUK-004	Poll	Exes	PRIORITY - Would you date someone who speaks to their ex every day?	Native Facebook poll/question. Native poll with neutral background and four answer options. Keep options simple; no outbound link; reply to early comments.	Comments only
BGUK-005	Image	Divorce	PRIORITY - The strange part was not becoming single. It was realising she had forgotten how to flirt.	4:5 editorial image/story card. Warm portrait + short story-card headline. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
BGUK-006	Reel	Second chance	PRIORITY - She cancelled her first date three times. The fourth time she finally went.	20-35s original AI-assisted reel. 4-scene story reel: cancellation texts -> getting ready -> arriving -> smile. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
BGUK-007	Image	Independence	PRIORITY - After years alone, what is harder: finding love or making room for it?	4:5 editorial image/story card. Minimal editorial card, empty second chair / cosy home. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
BGUK-008	Reel	Children	PRIORITY - When do you tell your children you are dating again?	20-35s original AI-assisted reel. Family-life scenes, no visible children faces; end with discussion question. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
BGUK-009	Carousel	Modern dating	PRIORITY - 5 modern dating terms you never needed in 2005.	5-slide 4:5 carousel. 5-slide educational carousel with plain-English definitions. Slide 1 hook, slides 2-4 value, slide 5 discussion question.	Comments only

Week 2 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
BGUK-010	Reel	Confidence	PRIORITY - He thought 47 was too old to start again. Then he accepted one coffee.	20-35s original AI-assisted reel. Story reel with man preparing, cafe, walk; no fake testimonial language. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
BGUK-011	Image	Exes	New partner wants the old wedding photos removed. Fair or unfair?	4:5 editorial image/story card. Split visual: photo box vs new relationship; discussion card. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
BGUK-012	Reel	Apps	Opening a dating app for the first time after 15 years.	20-35s original AI-assisted reel. POV reel: hesitant phone tap, profile setup, first message. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
BGUK-013	Poll	Children	Meet the children after 1 month, 3 months, 6 months, or later?	Native Facebook poll/question. Native poll; simple four choices. Keep options simple; no outbound link; reply to early comments.	Comments only
BGUK-014	Image	Standards	Are your standards higher now - or are you simply clearer?	4:5 editorial image/story card. Premium portrait + bold headline. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
BGUK-015	Reel	First date	The date was going well until one question about the ex changed the mood.	20-35s original AI-assisted reel. Narrated fictional restaurant scenario. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
BGUK-016	Image	Confidence	What NOT to apologise for when dating again.	4:5 editorial image/story card. 5-slide carousel: age, past, children, boundaries, nervousness. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
BGUK-017	Reel	Money	Who pays on a first date after 40?	20-35s original AI-assisted reel. Restaurant bill image with clean text overlay. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
BGUK-018	Carousel	Texting	A brilliant first date. Then one message: "Had a nice time." What does it mean?	5-slide 4:5 carousel. Chat-style reel with neutral fictional bubbles and comments prompt. Slide 1 hook, slides 2-4 value, slide 5 discussion question.	Comments only

Week 3 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
BGUK-019	Reel	Relationship goal	Serious relationship, companionship, casual, or not sure yet?	20-35s original AI-assisted reel. Native poll. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow
BGUK-020	Image	Second chance	She said she would never date again. Six months later she changed one small thing.	4:5 editorial image/story card. Short hopeful story reel ending before resolution. Headline max 12 words; page branding subtle; caption carries the story.	Soft discussion / profile follow
BGUK-021	Reel	Friends	Your closest friends dislike the person you are seeing. Do you listen?	20-35s original AI-assisted reel. Group dinner editorial image + question. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow
BGUK-022	Poll	Nervousness	Getting ready for a first date after a decade away.	Native Facebook poll/question. Routine reel: shirt/dress, fragrance, keys, deep breath, door. Keep options simple; no outbound link; reply to early comments.	Soft discussion / profile follow
BGUK-023	Image	Independence	Separate homes but a serious relationship - would you do it?	4:5 editorial image/story card. Two-home split image. Headline max 12 words; page branding subtle; caption carries the story.	Soft discussion / profile follow
BGUK-024	Reel	Apps	Four dates, no spark. Keep going or take a break?	20-35s original AI-assisted reel. Reel with calendar dates and reflective voiceover. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
BGUK-025	Image	First dates	5 low-pressure first-date ideas after 40.	4:5 editorial image/story card. Carousel: walk, coffee, gallery, market, early dinner. Headline max 12 words; page branding subtle; caption carries the story.	Soft discussion / profile follow
BGUK-026	Reel	Boundaries	Would you date someone still financially tied to their ex?	20-35s original AI-assisted reel. Minimal question card, no sensational wording. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow
BGUK-027	Carousel	Mistakes	The first mistake many newly single people make is rushing to prove they are fine.	5-slide 4:5 carousel. Thoughtful narrated reel with calm scenes. Slide 1 hook, slides 2-4 value, slide 5 discussion question.	Soft discussion / profile follow

Week 4 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
BGUK-028	Reel	Hope	Starting again is not starting from zero.	20-35s original AI-assisted reel. Editorial image; caption asks what experience taught them. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments / follow
BGUK-029	Image	Children	Your teenager finds out you have a date tonight. What happens next?	4:5 editorial image/story card. Fictional family dialogue reel, respectful and light. Headline max 12 words; page branding subtle; caption carries the story.	Comments / follow
BGUK-030	Reel	Living	Would you live with a partner again?	20-35s original AI-assisted reel. Native poll. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments / follow
BGUK-031	Poll	Second chance	Two people, both divorced, both nearly cancelled the date.	Native Facebook poll/question. Two-column story card visual. Keep options simple; no outbound link; reply to early comments.	Comments / follow
BGUK-032	Image	Independence	How do you love again without giving up the life you rebuilt?	4:5 editorial image/story card. Reflective reel: gym, work, friends, date. Headline max 12 words; page branding subtle; caption carries the story.	Comments / follow
BGUK-033	Reel	Community	How long were you single before you felt ready to date again?	20-35s original AI-assisted reel. Question card with comments prompt. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments / follow
BGUK-034	Image	First dates	Three date ideas that feel easier than a formal dinner.	4:5 editorial image/story card. Quick practical reel. Headline max 12 words; page branding subtle; caption carries the story.	Comments / follow
BGUK-035	Reel	Guide bridge	Dating again after years away: what should you actually look for in a platform?	20-35s original AI-assisted reel. Educational image leading to neutral guide, not hard sell. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Guide bridge only if relevant
BGUK-036	Carousel	Community	What our community taught us about starting again this month.	5-slide 4:5 carousel. Carousel summarising four anonymous comment themes. Slide 1 hook, slides 2-4 value, slide 5 discussion question.	Guide bridge only if relevant

10.2 Page Playbook - After Hours Singles UK

Code: AHSUK | Target: 30-45

Persona	Bio	Tone	Visual system
Busy professionals who have careers, independence and disposable income but limited time for dating.	Work is busy. Dating is complicated. Stories, humour and real conversations for UK professionals who are still single.	Smart, dry British humour, modern, competent, never corporate.	Graphite + off-white, city evenings, trains, cafes, restaurants, laptops put away after work.

Core pillars: Time; career; standards; texting; app fatigue; commuting; travel; money; independence.

Commercial hypothesis: General and quality-focused dating services; later test convenience and serious-intent offers.

Priority launch ideas: The first 10 rows in the month calendar are marked PRIORITY. They are the strongest initial hypotheses, not guaranteed viral posts.

Week 1 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
AHSUK-001	Reel	Time	PRIORITY - You finally have a free Friday. Your date cancels at 5:42 PM.	20-35s original AI-assisted reel. Evening phone notification, coat ready, city window; dry narration. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
AHSUK-002	Image	Career	PRIORITY - Successful at work. Absolutely useless at dating. Anyone else?	4:5 editorial image/story card. Clean professional portrait + humorous headline. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
AHSUK-003	Reel	Texting	PRIORITY - Busy... or just not interested?	20-35s original AI-assisted reel. Short chat reel with timestamps and three clues. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
AHSUK-004	Poll	Priorities	PRIORITY - Career, relationship, both, or depends on the week?	Native Facebook poll/question. Native poll. Keep options simple; no outbound link; reply to early comments.	Comments only
AHSUK-005	Image	Standards	PRIORITY - Being single is not the same as being available to everyone.	4:5 editorial image/story card. Minimal premium text card. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
AHSUK-006	Reel	Work travel	PRIORITY - Manchester Monday. London Wednesday. Date when exactly?	20-35s original AI-assisted reel. Travel-map reel with train, hotel, calendar and one date slot. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
AHSUK-007	Image	Dating apps	PRIORITY - When dating apps start feeling like another inbox.	4:5 editorial image/story card. Phone + laptop editorial image. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
AHSUK-008	Reel	Independence	PRIORITY - You built the career, home and life. Where does another person fit?	20-35s original AI-assisted reel. Reflective reel with work, home, dinner-for-one, message. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
AHSUK-009	Carousel	Time	PRIORITY - 5 dates that do not require giving up your whole evening.	5-slide 4:5 carousel. Carousel: coffee, walk, lunch, gallery, one drink. Slide 1 hook, slides 2-4 value, slide 5 discussion question.	Comments only

Week 2 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
AHSUK-010	Reel	Cancellation	PRIORITY - Three cancelled dates in a row. Still interested?	20-35s original AI-assisted reel. Fast scenario reel, end with yes/no question. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
AHSUK-011	Image	Lifestyle	Would you date someone who works every weekend?	4:5 editorial image/story card. Question card. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
AHSUK-012	Reel	Office	Workplace crush: smart idea or unnecessary risk?	20-35s original AI-assisted reel. Office-to-afterwork story reel, no employer logos. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
AHSUK-013	Poll	Availability	Best dating night: Thursday, Friday, Saturday, or Sunday?	Native Facebook poll/question. Native poll. Keep options simple; no outbound link; reply to early comments.	Comments only
AHSUK-014	Image	Money	Expensive first dates: impressive or unnecessary?	4:5 editorial image/story card. Restaurant table + bill, premium styling. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
AHSUK-015	Reel	Commuting	Would you date someone who lives 90 minutes away?	20-35s original AI-assisted reel. Train-route reel with time trade-off. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
AHSUK-016	Image	App fatigue	4 signs you need a dating-app break.	4:5 editorial image/story card. Carousel with healthy, non-clinical advice. Headline max 12 words; page branding subtle; caption carries the story.	Comments only
AHSUK-017	Reel	Standards	Too picky - or finally know what you want?	20-35s original AI-assisted reel. Portrait + simple caption. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments only
AHSUK-018	Carousel	First date	A 30-minute coffee that accidentally turns into dinner.	5-slide 4:5 carousel. Positive story reel. Slide 1 hook, slides 2-4 value, slide 5 discussion question.	Comments only

Week 3 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
AHSUK-019	Reel	Career	Would you move city for a relationship?	20-35s original AI-assisted reel. Native poll. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow
AHSUK-020	Image	Travel	Dating while you travel for work every month.	4:5 editorial image/story card. Airport/train/hotel reel, focus on scheduling. Headline max 12 words; page branding subtle; caption carries the story.	Soft discussion / profile follow
AHSUK-021	Reel	Lifestyle	Would you date someone earning much less than you?	20-35s original AI-assisted reel. Neutral question card, avoid class judgement. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow

Week 3 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
CBCUK-019	Reel	Social life	Pub, restaurant, event, or app for meeting someone?	20-35s original AI-assisted reel. Native poll. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow
CBCUK-020	Image	Confidence	Going to an event alone without looking uncomfortable.	4:5 editorial image/story card. Practical lifestyle reel. Headline max 12 words; page branding subtle; caption carries the story.	Soft discussion / profile follow
CBCUK-021	Reel	Boundaries	Casual dating still needs boundaries.	20-35s original AI-assisted reel. Simple image card. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow
CBCUK-022	Poll	Attraction	Chemistry is not the same as compatibility.	Native Facebook poll/question. Fast explanatory reel. Keep options simple; no outbound link; reply to early comments.	Soft discussion / profile follow
CBCUK-023	Image	Independence	Your weekend is already good without a date. That is the point.	4:5 editorial image/story card. Lifestyle image: gym, coffee, friends, city. Headline max 12 words; page branding subtle; caption carries the story.	Soft discussion / profile follow
CBCUK-024	Reel	Messaging	4 messages that kill a conversation.	20-35s original AI-assisted reel. Carousel with respectful examples. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow
CBCUK-025	Image	Honesty	Would you tell someone you are dating other people?	4:5 editorial image/story card. Question card. Headline max 12 words; page branding subtle; caption carries the story.	Soft discussion / profile follow

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
CBCUK-026	Reel	Rejection	What to do after being ghosted instead of chasing.	20-35s original AI-assisted reel. Practical reel. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Soft discussion / profile follow
CBCUK-027	Carousel	Lifestyle	What does a genuinely good single life look like after 30?	5-slide 4:5 carousel. Editorial image. Slide 1 hook, slides 2-4 value, slide 5 discussion question.	Soft discussion / profile follow

Week 4 - 9 posts

ID	Format	Pillar	Hook / content idea	Staff asset brief	CTA
CBCUK-028	Reel	Travel	Dating while travelling around the UK for work or weekends.	20-35s original AI-assisted reel. Travel reel with clear boundaries. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments / follow
CBCUK-029	Image	Dating style	One person at a time or casual until exclusive?	4:5 editorial image/story card. Native poll. Headline max 12 words; page branding subtle; caption carries the story.	Comments / follow
CBCUK-030	Reel	First date	The 45-minute first-date rule: smart or too transactional?	20-35s original AI-assisted reel. Debate reel. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments / follow
CBCUK-031	Poll	Story	A man rebuilds his social life after divorce before dating again.	Native Facebook poll/question. Positive story card. Keep options simple; no outbound link; reply to early comments.	Comments / follow
CBCUK-032	Image	Confidence	The difference between chasing and showing interest.	4:5 editorial image/story card. Practical reel with examples. Headline max 12 words; page branding subtle; caption carries the story.	Comments / follow
CBCUK-033	Reel	Community	Men 30+: what is harder now than dating in your 20s?	20-35s original AI-assisted reel. Question image. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Comments / follow
CBCUK-034	Image	Intentions	4 ways to make your intentions clear without making it awkward.	4:5 editorial image/story card. Carousel. Headline max 12 words; page branding subtle; caption carries the story.	Comments / follow
CBCUK-035	Reel	Guide bridge	What kind of dating service fits someone who wants low-pressure dating?	20-35s original AI-assisted reel. Educational reel leading to neutral guide. Hook visible in first 2s; 4-6 scenes; natural UK voice; captions; end with one question.	Guide bridge only if relevant
CBCUK-036	Carousel	Community	The best men's dating debate from this month.	5-slide 4:5 carousel. Recap image with three anonymous positions. Slide 1 hook, slides 2-4 value, slide 5 discussion question.	Guide bridge only if relevant

11. 30-Day Growth and Learning Sprint

Week 1 - Establish identity	Publish 9 posts/page. No affiliate selling. Confirm branding, tone and format quality. Staff replies to meaningful comments. Start clean baselines.
Week 2 - Find patterns	Publish 9 posts/page. Measure reach, share rate, comments, follows and watch behaviour. Identify early winning hooks/pillars. Still no hard selling.
Week 3 - Double down	Publish 9 posts/page. At least half of new content should be influenced by themes beating the Page median. Introduce one useful editorial website guide per page if the public site is ready.
Week 4 - First monetisation test	Publish final 9 posts/page. Maximum one editorial guide CTA and one comparison-page CTA per page. Keep the rest native. Begin click-ID attribution and approved PPS measurement if affiliate relationships are ready.

Paid support: GBP0 for the first 14 days. Days 15-30: optional network test budget roughly GBP200-300 total, used only to amplify posts that have already clearly beaten their Page baseline. Paid support is not used to rescue weak content or to buy vanity followers.

12. AudienceOS - Product Specification for the Later Cursor Build

This is the minimum architecture the future internal web app must support. Do not build it from this PDF until the owner gives the separate Cursor build instruction.

User roles: Owner/Admin; Content Operator; optional Reviewer; optional Analyst. Each staff member gets an individual login. Never share the owner password. Passwords must be securely hashed by the authentication system, not stored in plaintext.

Module	What the owner sees	What staff sees / does
Today	Network status, overdue tasks, approvals, winners.	Exact assigned tasks, due time, format, hook, script, asset brief, Drive folder, status.
Content engine	Idea bank by persona/pillar/hook/format; winner-derived ideas.	AI draft options -> human edit -> submit for review.
Calendar	All pages, regions and staff in one calendar.	Only assigned/allowed pages.
Google Drive	Linked asset folders and usage status.	Open assigned folder, upload final asset, mark ready.
Analytics	Reach, shares, comments, follows, clicks, sales, revenue by page/post/pillar.	Basic feedback on published tasks; no financial controls unless granted.
Affiliate attribution	Post -> site session -> partner click -> PPS status -> revenue.	Normally hidden from content operator except simplified outcome.
Expansion	Add new GEO, pages, language, offers, staff without rebuilding the product.	Assigned only to permitted markets/pages.

Task object fields: task_id, geo, page_id, post_id, due_at, format, pillar, hook, brief, script, caption, asset_prompt, CTA, status, assignee, Drive_folder_id, reviewer, Facebook_post_id, public_url, published_at, 24h_metrics, 72h_metrics, winner_reason.

Expansion principle: UK is a configuration, not hardcoded logic. Future GEOs such as Ireland, Germany or France should have their own pages, language rules, affiliate offers and staff assignments while using the same content/analytics engine.

13. Public Website / Comparison Architecture

The internal AudienceOS and the public consumer website are separate products. A working public brand name is **DateRoute UK** (name availability must be checked before launch). The public site should be useful even if the user never clicks an affiliate offer.

Suggested initial information architecture: /starting-again, /professional-singles, /single-parents, /dating-after-50, /casual-dating-men, /stories, /guides, /compare.

Comparison flow: Facebook post -> useful article/guide -> comparison page -> clearly labelled affiliate buttons -> partner site. Each outbound button attaches the immutable post/click ID so a later PPS conversion can map back to the originating content.

Disclosure	Where content is affiliate advertising, the commercial nature must be clear. UK ASA/CAP guidance says affiliate marketing is advertising and must be obviously identifiable. Build disclosure into the page template from day one.

14. Day-30 Decision Gates - Where We Put More Energy

Signal	Decision
High reach + high share rate + low site intent	Keep as traffic/brand content, but do not assume commercial value. Test softer bridges.
Medium reach + strong site clicks / PPS	Commercially valuable niche. Produce more content around the same persona and intent.
High reach + strong PPS	Highest-priority scale candidate: more organic volume, adjacent page concepts, selective paid amplification.
Low reach after 30+ quality posts	Rework hooks/visual identity. If still weak, reduce output or sunset the page.
One pillar repeatedly beats Page median	Create new executions around the insight and consider a dedicated recurring series.
One format repeatedly weak	Reduce it for that Page even if it works elsewhere. Pages do not need identical format mixes after month 1.

Day-30 output: a ranked evidence map of personas, pillars, hooks and formats - not a subjective opinion about which page "looks best". The next 500 content ideas should be generated from that evidence.

15. Launch Checklist - What to Do Today

1. Create the five Facebook Pages with the recommended names, bios and category/branding appropriate to each persona.

2. Reserve matching Instagram handles where practical, but Facebook remains the first distribution engine.

3. Create the Google Drive root and five page folders using the structure in Section 7.

4. Create one simple master tracker with Post ID, Page, Pillar, Format, Due, Status, Facebook ID/URL, 24h metrics and 72h metrics.

5. Produce profile image, cover image and three reusable design templates for each Page: story card, question card, carousel.

6. Create the first 9 posts per Page (Week 1) before launching so staff never operates day-to-day from panic.

7. Publish Week 1 without affiliate links. Focus on originality, comments and clean baseline data.

8. Do not build thousands of posts yet. Use the first 45 posts network-wide as the first real learning sample.

9. Do not start paid amplification until at least Day 15 and only on proven posts.

10. When the owner is ready at night, use this document as the product brief for the separate AudienceOS Cursor planning session.

16. Copy-Paste Handoff Prompt for a Future ChatGPT / Cursor Session

MASTER HANDOFF	You are working on the UK Audience Network project. Read the attached Master Business + Content Architecture PDF before making decisions. The project is a performance-publishing business: five distinct UK Facebook pages for adults 30+, original organic content first, one owned editorial/comparison website, and later PPS/CPA affiliate monetisation with post-level attribution. Month 1 is a 180-post validation sprint, not a mass-content spam operation. The five launch pages are Back in the Game UK, After Hours Singles UK, Single Parent Stories UK, Still Got It UK, and Casual By Choice UK. AudienceOS is the future internal operating system: individual staff logins, assigned content tasks, Google Drive-linked asset folders, approval workflow, Facebook post mapping, analytics, affiliate click/subID attribution, PPS status/revenue, winner detection and multi-country expansion. Preserve the page personas, content rules, post IDs, KPI definitions and month-1 decision gates from the PDF. Do not invent fake testimonials or performance. Do not mass-copy content across pages. When proposing implementation, first audit existing code/infrastructure and reuse what already exists.

17. Research Sources and Operating References

Source	How it informs this plan
Meta Newsroom - Rewarding Original Creators on Facebook (March 2026)	Used for originality guidance: original content is prioritised; duplicative/minor edits are deprioritised; original Reel views/watch time approximately doubled in H2 2025 vs H2 2024.
DataReportal - Digital 2026: The United Kingdom	Used for Facebook UK audience context: Meta ad-planning data indicated 38.8M Facebook users in late 2025 and reach equivalent to 69.9% of UK adults 18+.
Ofcom - Online Nation 2025	Used for current UK online behaviour context, including Facebook among commonly used apps.
Ofcom - Online Nation 2024 / 2025 dating summary	Used for UK dating-service age patterns: Plenty of Fish and Match skewed older; 55-64 users who used dating services had high time spent.
ASA / CAP - Recognising ads: Social media and influencer marketing (2026)	Used for UK affiliate disclosure requirement: affiliate marketing is advertising and commercial content must be clearly identifiable.

Final principle

The first month is not about proving we can produce content. AI can produce content. The first month is about proving which audience, insight, hook and format produces attention that can later become approved affiliate revenue. Every workflow decision should protect that learning loop.
